

LH 5474 HXLL

CORN HYBRIDS TECH INFO SUMMARY

POSITIONING AND MANAGEMENT

LH 5474 HXLL has dominating yield performance. It can be planted early and will come out of the ground like a rocket. LH 5474 HXLL also has very good drought tolerance. While this is true, place this hybrid in fields where there are few adversities. It can yield well, and fields that have high yield potential are the best place for it. The hybrid genetics suggest that this hybrid will have very good leaf disease tolerance but only slightly above average Gray Leaf Tolerance. LH 5474 HXLL has good roots however keep this hybrid out of root limiting situations.
