CORN HYBRIDS TECH INFO SUMMARY

POSITIONING AND MANAGEMENT

This hybrid is more of a racehorse type. Place it in high-yield environments for best performance. Do not put this hybrid in root-limiting situations. The fast drydown will allow this hybrid to be harvested early. This hybrid has excellent emergence and vigor to allow it to be planted early in cold, wet soils. The ear flex will allow this hybrid to do well at lower planted populations, as well as improve stalk-strength.

GENERAL CHARACTERISTICS	
• Flex ear with top-end yield potential	
• Medium plant and ear height	
• Very fast emergence and strong vigor	
• Fast drydown
